DETAILED ACTION

Specification

1. Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

Allowable Subject Matter

2. Claims 1-7,9,10 are allowable over the prior art of record.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claim 8 is rejected under 35 U.S.C. 102(b) as being anticipated by Bahl et al (5615299).

As per claim 8, Bahl et al (5615299) teaches:

“storing speech part information.....dictionary therein” as storing speech information in a baseform dictionary in a node structure (col. 8 lines 48-64)

“referring to connection rules.....should be expanded” as using discriminate matrix to determine class (context), (col. 1 line 35 – col. 2 line 10)

“expanding the hypothesis....does not connect to the context” as expanding the hypothesis (col. 8 line 48 – col. 9 line 9).

Art Unit: 2654

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Please see attached PTO-892 form for related art.
